

Inauguration Speech by The Dean of Faculty of Syariah and Law, USIM

بسم الله الرحمن الرحيم والحمد لله رب العالمين، والصلاة والسلام على أشرف الأنبياء والمرسلين سيدنا محمد وعلى آله وصحبه أجمعين

السلام عليكم ورحمة الله وبركاته.

Alhamdulillah, first and forever, let us together express our utmost gratitude to the hadrat of Allah SWT because with the abundance of His love and permission, the plan to hold the "**CFORSJ International Conference on Sharia, Law and Science 2023 (CFORSJ i-CONF 2023)**" can be carried out as planned by members of the program committee consisting of the CFORSJ research group, namely the "Center of Research for Fiqh Forensics and Judiciary", a research group from the Faculty of Sharia and Law, USIM.

A congratulate extended to Assoc. Prof. Dr. Aspalilah Alias (Director of the conference) and all committee members of the CFORSJ i-CONF 2023 conference that involved in making this program possible. With their sincerity, inspiration, and work hard the conference could be carried out as planned.

On this occasion, I would like to welcome and congratulate all participants who have participated in the CFORSJ i-CONF 2023 conference. Interestingly, the organizers also presented several wise academic scientists, especially in the fields of Islamic legislation and forensic science, as Keynote speakers and invited speakers, namely Professor Dr. Wan Abdul Fattah Wan Ismail (from USIM), Professor Dr. Nor Faridah Mohd Nor (from UKM), Dr. Arofi Kurniawan (from Airlangga University, Indonesia) and Dr. Yacoup Mustafa Mahmoud Saleh (Ministry of Interior, Emirates).

In addition, the organization of this conference has also indirectly raised the name of Malaysia as a country that has a unique legal system.

Furthermore, I am also very honored and proud of the initiative that has been made by the research group from the Faculty of Sharia and Law, USIM namely CFORSJ to hold this conference which aims to explore issues related to Sharia, law and science in line with the theme "*The Role of Sharia, Law and Forensic Science in Facing the Challenges of the Digital Revolution Era*".

I am confident and believe this conference will be an exchange of ideas and thoughts from all parties involved directly and indirectly in presenting issues related to Sharia, law and science.

Finally, I once again congratulate all the committee members who worked hard to make this conference a success. The same goes for the management of the Faculty of Syariah and Law, USIM, who always provide support to mobilize this conference.

With this, with the lafaz “بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ” inaugurate the program International Conference on Shariah, Law and Science 2023 (CFORSJ i-CONF 2023).

Thank you very much.
